5 Step Job Order Process

1

**Joint
Scope**

2

**Detailed
Scope of**

3

Price

4

**Price
Proposal**

5

**Job
Order**

Gordian and the client meet to discuss the project and create a joint scope of work. Gordian provides a detailed scope of work to the client for their review and approval.

Gordian prepares a detailed price proposal for the client. The price proposal includes a breakdown of costs for materials, labor, and overhead. Gordian reviews the price proposal with the client to ensure all items are included and the price is fair.

Gordian reviews the Price Proposal and provides feedback to the client. Once the Price Proposal is approved, Gordian issues a Job Order to the client.

Once the Price Proposal is approved, Gordian issues a Job Order to the client. The Job Order includes all the details of the project, including the scope of work, price, and schedule. Gordian then begins work on the project.
